

800A Median Annual Earnings

Description	The median annual earnings of Exiting Participants who were Employed Two Quarters after Exit (505A).
Data Source(s)	CASAS TOPSpro Enterprise Chancellor's Office Management Information System Employment Development Department Unemployment Insurance Dataset National Student Clearinghouse CSU/UC Cohort Match
TE Data Elements	CurrentAge (calculated) TOTAL PY HOURS Program Year
TE Calculations	505A students who met the following criteria: Annualize earnings in the 2nd fiscal quarter after the academic year of exit Multiply quarterly fiscal wages by four, using the quarterly wages in the second fiscal quarter immediately following the selected year AND Adjust for inflation AND use the CPI values extracted from CA DOF website used to create deflator table used to adjust for inflation
COMIS Data Elements	GI03 Term-Identifier SX Domain and Format MAX_ENR(GI03) Calculated
COMIS Calculations	505A students who met the following criteria: Annualize earnings in the second fiscal quarter after the academic year of exit Multiply quarterly fiscal wages by four, using the quarterly wages in the second fiscal quarter immediately following the selected year AND Adjust for inflation AND use the CPI values extracted from CA DOF website used to create table used to adjust for inflation
Denominator	505A Employment Two Quarters After Exit (Exiting Participants who have a wage record in EDDUI in Q4 of the selected year)
Value Type	Median earnings and unduplicated count of Participants

Drilldowns	Disaggregations: Gender, Race/Ethnicity, Age Group AE Program Type: ABE, ASE, ESL, CTE AE Student Status: All
Notes	<ul style="list-style-type: none"> • K12: participants tracked based on date of exit. • Community college participants tracked based on the last year when they were enrolled. • Unemployment Insurance data contain wages only for those employed in an occupation or industry covered by Unemployment Insurance in California. This excludes individuals employed by the military or federal government, and those who are self-employed, employed out of state, unemployed, or not in the workforce after completion of an award. • Data will not be displayed until two years after a student exits the system. • A student’s academic year of exit is the end of the academic year in which they were last enrolled in the community college system • Quarterly wages will always be calculated using Q4 of the year of exit (i.e., if a student was last enrolled in 2017-18, earnings will be calculated using wages in October-December 2018) • The definition of exiters in the Student Success Funding Formula only includes students who exited the district while this metric includes students who exited the community college system and all postsecondary. Therefore, this metric will not align with the SCFF. • Because this metric measures the outcome in the subsequent year, data will not be available for the most recent year.
